

Nicolas Quinones

Software Developer

Orlando, Florida • +1-386-473-5724 • quinonesnn@gmail.com • github.com/quinonesnn/ • linkedin.com/in/nick-quinones

Highly motivated full-stack developer with a Bachelor of Science in Computer Science and a portfolio of personal projects, including Solari Finance (financial SaaS) and a MERN Twitter Clone. Skilled in building full-stack applications using Next.js, React, and Node.js.

RELEVANT WORK EXPERIENCE

AssistRx, Orlando, FL 2023 – Present Technical Support Specialist

- Decreased time required to perform routine tasks by over 70% and average support ticket time by 50% through training 2 new hires, delegating tasks, and documenting processes and procedures in detail.
- Created a customized Python application that streamlined the onboarding formatting process and significantly reduced the time to process cases by approximately 80%.

Perryman & Associates, DeLand, FL 2021 – 2023 Software Engineer Intern

- Leveraged C# and various database technologies in practical internal applications, understanding the difference between MongoDB, MSSQL, SQLite, and Postgres.
- Created an application that runs SQL scripts to create users in a database with appropriate permissions based on user input. Utilized the Dapper NuGet package to handle variables without requiring explicit declaration in SQL.
- Utilized C# and Telnet to extract data not exposed through standard UI capabilities.

RELEVANT PROJECTS

Solari Finance <https://github.com/quinonesnn/solari-finance>

- Developed a full-stack financial SaaS platform using Next.js, TypeScript, and Appwrite backend. Implemented secure authentication, multi-bank connections, transaction history, in-app payment transfers, and responsive design with plans to integrate budgeting tools.
- Utilized Plaid and Dwolla APIs to establish secure bank connections and money transfers, integrating them with Next.js and Appwrite for a seamless user experience. Implemented sentry, an application performance monitoring & error tracking software.
- Hosted on Vercel: <https://solari-finance.vercel.app>

MERN Twitter Clone github.com/quinonesnn/MERN-Twitter-Clone

- Built a full-stack Twitter clone utilizing MERN stack (MongoDB, Express.js, React, Node.js) with user authentication, and functionalities for posts, comments, likes, and notifications. Deployed on Render.com. <https://twitter-clone-boe7.onrender.com/>

EDUCATION

Stetson University, Deland, FL 2023 Bachelor of Science – Computer Science

IBM Full Stack Software Developer Professional Certificate
